**About the Play:** Written to mark the 150th anniversary of Elgar's birth, Elgar and Alice is a gripping drama that transports us to the year 1920. As we are taken back in time, we have a compelling glimpse into the lives of Sir Edward Elgar, his wife, Alice, and his mistress 'Windflower'.

Set in their comfortable home in Hampstead, the play delves into a marriage that was anything but conventional, yet inspired a great composer to create some of the most iconic English music of the twentieth century.

**Support Mind in Mid Herts:** By attending 'Elgar and Alice', you directly support Mind in Mid Herts with providing prevention, recovery and support services in Hertfordshire, to empower people to take control of their mental health. Our services have become increasingly essential, and your participation in this event helps us continue to provide and expand our support to those in need in our community.
